

# Engineering Intern, Education Technology

**Company:** Athlos Education

**Location:** Boise or Remote

**Reports to:** CPO / SDM

**Classification:** Part-Time, non-exempt

**Benefits:** No

**Compensation:** DOE

## About Athlos & Role

---

Athlos is on a mission to provide innovative technology solutions to help streamline special education operations and compliance in K12 school districts across the country.

Our flagship software product, Athlos Special Education Logs, is expanding rapidly, and we are looking for an Engineering Intern to join our growing team. If you are passionate about technology and education, interested in growing your skills, have an entrepreneurial spirit, and are looking for an opportunity to work with a great team, keep reading!

As an engineering intern at Athlos, you will have the opportunity to expand and apply your technical knowledge under the mentorship of other engineers. You will work as part of a talented team to deliver a cutting-edge software product and engage in a wide range of projects and tasks. You'll find creative, scalable solutions for problems, troubleshoot issues and bugs, research and implement best practices, help design and build new software features, and more.

If you are a creative, hard-working self-starter with a drive to see your ideas and strategies yield results, this is the job for you. This role has the potential to transition into a full-time position upon completion of degree.

## Duties & Responsibilities

---

- Assist in researching and implementing best practices for mobile application and mobile API development
- Assist in designing and coding software features, units, and modules that meet product specifications and development schedules
- Assist in design, implementation, and maintenance of custom ETL processes
- Troubleshoot problems and implement solutions for software operating systems and application
- Assist in testing new features and work with the team to resolve bugs prior to release
- Other duties as assigned

## Qualifications, Skills & Experience

---

- Current student pursuing a four-year degree in Computer Science, Math, or related; Graduation date in Spring 2022 preferred, but not required
- Programming experience in C#, C++, Java or equivalent object-oriented programming language

- Experience with HTML, JavaScript, CSS, Python
- Experience with SQL, as well as using SQL-based queries from within programming languages
- Experience with Xamarin mobile application development (preferred)
- Experience with Selenium web scraping (preferred)
- Experience with ASP.NET MVC Framework (preferred)
- Familiarity with Azure or other PaaS (preferred)
- Familiarity with version control tools such as Git
- Familiarity with Agile Development methodologies
- A genuine interest in education and technology
- Ability to thrive in a fast-paced work environment
- Ability to communicate complex ideas and processes, simply and concisely
- Strong collaboration skills, attention to detail and complex problem solving

## Fit

---

We look for team members who are...

- User and mission-oriented: we are devoted to our product mission to improve operations, support compliance, and enhance services for K12 special education departments and students across the country.
- All-in: We go above and beyond job descriptions, working together as a team.
- Agile & Action-Oriented: We get things done, knowing that our progress is urgent to our partners and to our growth.
- Always Learning: We embrace a growth mindset in order to reach our full potential.
- Courageous: We take risks in order to achieve big things.
- Resourceful: We are creative, solution-oriented, and scrappy.

## Working at Athlos

---

At Athlos, we believe the positive experience of employees is essential to growth, both individually and collectively.

**Benefits:** Team members receive the perks of a modern office space with an onsite kitchen, gym, court and turf, growth opportunity in a young, innovative company, and more! 100% of our engineering team is based in our Boise office. We do have team members in other departments that are remote.

**Values:** We value integrity, trust, innovation, an entrepreneurial spirit, respect, and a customer-first mindset. These values determine the decisions we make, the community we build, and the service we deliver to our partners.

**Team:** We believe that diversity fuels innovation and we aim to foster an environment where everyone has an opportunity for impact and growth. We are a talented, hard-working team with an appreciation for work-life balance.

## How to Apply

---

Submit your application, resume, and cover letter online at: <https://athlos.org/careers/> or email to [info@athlos.org](mailto:info@athlos.org). Please indicate weekly availability in your application (i.e. M-F 12pm-5pm).

## Equal Opportunity Employer

---

Athlos is an equal opportunity employer and does not discriminate against otherwise qualified applicants on the basis of race, color, creed, religion, age, sex, marital status, national origin, ancestry, disability, handicap or veteran status.
